REMARKS

The figures of births and deaths shown in this statement for week ending the 24th August, 1957 relate to 148 towns with an estimated population of 22,071 thousands. Information about Andhra Pradesh, Madhya Pradesh, Madras, Rajasthan and West Bengal could not be included. The total number of towns is 319 and their population is 42,930 thousands. Thus 46% of the total number of towns representing 51% of the total population is covered in this statement. The

number of births and deaths in these towns were 13,753 and 6,600 representing birth and death rates of 32.4 and 15.5 per thousand of population respectively.

Cuttack was the only town which recorded high death rate of 51.1 per thousand of population. In Cuttack the high death rate was mainly due to Dysentery and Diarrhoea. The following table shows the position by States.
